4. Next, you will see some statements. Generally speaking, if you had to guess, do you think this sounds more like something a [Democrat would say, or more like something a Republican would say]?

	Democrats	Republicans	Don't know
We have a plan to make life safer, more stable, and secure for all of us	34%	52%	14%
We deserve leaders who will be serious about safety, work with police to solve serious cases of crime and take illegal guns off the street, and fully fund things that are proven to improve everyone's quality of life, like good schools, jobs, and affordable housing	49%	39%	12%
We need to be open to new, more effective ideas to reduce crime and prevent gun violence, not repeat the same failed policies again and again	50%	36%	14%
Americans are looking for real solutions to make communities safer to prevent crime, not just respond after it happens. We have to collaborate with law enforcement, social service agencies, schools, and residents to deliver safety and stability	43%	44%	12%

5. Of the following statements, do you want to hear [more or less] about that topic from Democrats?

	I want to hear more about this from Democrats	I want to hear less about this from Democrats	I already hear the right amount about this from Democrats
January 6 insurrection	28%	45%	27%
Trump's felony conviction	30%	47%	23%
Having a plan for safety, stability, and security	58%	20%	22%
Delivering safety, accountability, and justice	55%	23%	22%

6. Of the following statements, do you want to hear [more or less] about that topic from Republicans?

	I want to hear more about this from Republicans	I want to hear less about this from Republicans	I already hear the right amount about this from Republicans
Criminal legal reform	50%	20%	30%
Having a plan for safety, stability, and security	53%	18%	29%

<b>N</b>	<b>1,128</b>

8. In your opinion, how serious of a problem is crime in the United States?

Very serious	47%
Somewhat serious problem	42%
Not very serious problem	10%
Not at all a serious problem	1%
Totals	100%
<b>N</b>	<b>1,128</b>

9. Do you feel Trump's actions are causing more stability or less stability in the country?

More stability	39%
Less stability	46%
Not much change in stability	9%
Not sure	6%
Totals	100%
<b>N</b>	<b>1,128</b>

10. There has been a lot of news about Trump's first weeks in office. Which statement below is more aligned with your views?

Trump's actions are making life less stable and secure for everyone. From taking away funding for critical health and safety programs to putting jobs and families at risk, Trump is putting the interests of his rich friends over the needs of working people. He is making the government less accountable and less effective, and that makes everyone less safe. ....	50%
Trump is putting America first. Trump was elected with a clear mandate to take swift action to put the country back to work and return power to the people from the Washington elite, and that's exactly what he's doing. Only bold, forceful actions to cut government waste, make our country strong, and spur economic growth will usher in America's next Golden Age. ....	50%
Totals .....	100%
<b>N</b> .....	<b>1,128</b>

11. There has been a lot of news about cities refusing to collaborate with federal immigration authorities. Even if neither is exactly right, which statement below is closer to your views?

When local law enforcement collaborates with federal immigration authorities, it undermines trust between communities and law enforcement. Immigrant residents may not report crimes, provide tips, serve as witnesses, or testify in court—fearing it could lead to arrest and deportation simply for trying to do the right thing. To build a safer, more stable community for everyone, the federal government should not conduct mass raids or force local police to participate in them. ....	47%
Sanctuary cities enable illegal immigrants who should have been deported to escape justice and commit new crimes. Rather than shielding and hiding people who are here illegally, our local law enforcement officers should do everything they can to assist the federal government with enforcing the laws against illegal immigrants who break them. ....	53%
Totals .....	100%
<b>N</b> .....	<b>1,128</b>

12. There has been a lot of news about cities refusing to collaborate with federal immigration authorities. Even if neither is exactly right, which statement below is closer to your views?

Police resources should be spent on investigating and solving crime, not on mass raids and deportation. Rather than doing the federal government's job of immigration enforcement, our local law enforcement should prioritize quick responses to 911 calls, getting illegal guns off the street, and clearing cases so that crime doesn't go unsolved. It is a waste of resources to deploy local police to conduct immigration raids that only undermine trust in the community. ....	50%
Sanctuary city policies tie the hands of local law enforcement officials trying to keep illegal criminals off the streets and make our cities safer. Look at the murderer who killed Laken Riley in cold blood—he had been arrested before and should never have been let out. Local police should be able to enforce the laws against criminals whether they've violated federal immigration laws, local laws, or any other kind of law. ....	50%

## RV Omni 2025 February A - Vera Toplines

This survey is based on 1,128 interviews conducted by YouGov on the internet of registered voters. The sample was weighted according to gender, age, race/ethnicity, education, and U.S. Census region based on voter registration lists, the U.S. Census American Community Survey, and the U.S. Census Current Population Survey, as well as 2020 Presidential vote and approximate 2024 Presidential vote based on available results. Respondents were selected from YouGov to be representative of registered voters. The weights range from 0.24 to 5.65 with a mean of 1 and a standard deviation of 0.56.

The margin of error (a 95% confidence interval) for a sample percentage  $p$  based upon the subsetting sample is approximately 3.3%. It is calculated using the formula:

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where  $CV$  is the coefficient of variation of the sample weights and  $n$  is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
