

Registered Voter Omnibus

RV Omni 2025 July A - Vera Toplines

Sample Online sample of 1,015 voters fielded from July 09 to July 11, 2025.
 Margin of Error $\pm 3.8\%$

1. How concerned are you about each of the following types of crime impacting you, personally?

	Very concerned	Somewhat concerned	Not very concerned	Not at all concerned
Homelessness and public drug use	35%	33%	21%	11%
Opioids and fentanyl abuse	36%	25%	21%	18%
Gun Violence	39%	33%	19%	10%
Street crime like muggings or assaults	34%	33%	23%	11%
Retail theft	25%	32%	25%	18%
Migrant crime	33%	23%	21%	22%
Carjackings	26%	31%	28%	16%

2. How much do you believe the following proposals will help to reduce crime in this country?

	Help a lot	Help a little	Not help much	Not help at all
Increasing access to mental health care	65%	27%	5%	3%
Building trust between the police and the community	62%	30%	4%	3%
Making sure public safety, not wealth, determines who stays in jail awaiting trial	66%	24%	7%	4%
Fully funding programs and services that break the cycle of crime	53%	31%	12%	5%
Getting illegal guns off the street	60%	25%	9%	6%
Increasing funding for affordable housing, good schools, and living wages	58%	23%	13%	6%
Having alternatives to 911 and police for people in a mental health crisis	50%	32%	12%	6%
Closing loopholes and having stronger background checks for buying guns	56%	21%	12%	11%
Putting more police officers on the streets	49%	29%	13%	9%
Having longer prison sentences for people who commit crimes	43%	28%	19%	10%

3. Which of the following policies about policing do you support the most, even if none is exactly right?

Supporting police who put their lives on the line for us everyday and holding those who use excessive force or abuse their power accountable	35%
Building strong bonds and trust between police and the community	19%
Taking the burden off police officers to solve every social problem so they can focus on serious crime	23%
Putting more police on the streets	15%
More funding for police	7%
Prioritize promoting detectives and officers from within existing police ranks	2%
Totals	101%
N	1,015

4. Which of the following statements about people who break the law come closest to your view, even if none is exactly right?

To make communities safe, people who break the law must be held accountable. This means seeing the harm they've done, accepting the consequences, learning from mistakes, and changing their behavior. Harsh punishment and long sentences alone lead to more violence. We need to provide people with programs that work to turn their lives around and prevent future crime.	55%
We need to make sure that people who break the law are held accountable by enforcing strict punishment. If you do the crime, you should do the time, and that means serving the full sentence. Offenders shouldn't be able to get out of jail or prison early simply because they complete programs or have a good track record behind bars.	45%
Totals	100%

5. Which of the following statements from a candidate for office come closest to your view, even if none is exactly right?

"The Left has allowed a culture built on hating the police to drive decisions surrounding law enforcement. The Defund the Police movement is without a doubt one of the greatest dangers to public safety in our nation's history, and Democrats are responsible for it. The hostile climate for police has discouraged proactive police work. We can't expect the police to keep us safe if we aren't willing to keep them safe."	42%
"I'm not about scare tactics or slogans, and I'm not afraid to have an honest conversation. We keep expecting police to solve every social problem, from kids skipping school to mental illness to homelessness to gun violence. No one profession can do that. We're spending \$115 billion a year and putting too much on police departments. It's time to try out some promising new solutions to lift the burden. It's time for support and change, not blame."	58%

6. Which of the following statements from a candidate for office come closest to your view, even if none is exactly right?

"Crime is out of control because woke policies have blocked the police from doing their jobs. Law enforcement maintains public safety by letting people know that if they commit a crime, they will face consequences. It's simple: more police equals less crime. Police should not be held back while they work to restore peace-of-mind to law-abiding citizens. We need to support the police to do their jobs—anything less puts us all at risk."44%

"It isn't fair to expect the police to solve every social problem. No one profession can do that. The police should focus on investigating and solving serious crimes and send trained experts to help people who are homeless or in crisis. By sending the right first responder, we can make our communities safer. This is not anti-police. We can support police doing their jobs while holding them accountable if they abuse their power or break the law." 56%

7. Which of the following statements from a candidate for office comes closest to your view, even if none is exactly right?

"Cities are being overrun by an influx of new migrants causing chaos and crime. We can't spend billions in taxpayer money to feed, clothe, and shelter illegal migrants - many of them criminals. Meanwhile, ordinary Americans are struggling just to pay bills while illegal immigrants get free benefits. Crime has gone up because of Biden's open border policies that let migrants bring fentanyl and deadly drugs into our country and commit murder, rape, and other violent crimes while here. It's time to secure our borders, bring an end to migrant crime, and put Americans first." 48%

"My opponent uses lies and hate for political gain. Spending taxpayer money to round up and deport immigrants—many of whom are longtime residents, green card holders, and even citizens—is a political tool to get attention and divide us. Let's focus on solutions that live up to our values and make us safer. Let's secure our border and create a pathway to citizenship for immigrants who have lived here for years instead of wasting money on ICE raids that do nothing to make us safer. Let's fully fund things proven to improve safety and everyone's quality of life, like good schools, good-paying jobs, health care, and affordable housing. I'm focused on making life safer, more stable, and secure for all of us." 52%

8. Which of the following statements from a candidate for office comes closest to your view, even if none is exactly right?

"We can't look away from how drugs like fentanyl have devastated too many families. While some politicians are trying to distract and divide us by blaming immigrants at the borders, we need real solutions to address this crisis. We can prevent addiction, overdoses, and death by fully funding overdose prevention centers, mobile treatment programs, and fentanyl test strips—the very programs that Republicans in Congress who claim to be "tough on crime" just voted to cut. Instead of scare tactics, I'm about real solutions to make life safer, more stable, and secure for all of us." 48%

"We must actively secure our borders and aggressively target fentanyl dealers. Strong border control and harsh penalties for traffickers are non-negotiable. Politicians have failed to stop the inflow of drugs and are now allowing dangerous narcotics to ravage our streets and poison our people. We're taking a stand – tough on crime, uncompromising at the border. It's time to aggressively defend our nation by mobilizing military personnel and assets as necessary to demolish the cartels in Mexico that send drugs and people into our country. No more leniency."

9. Now, you will see some actions the federal government has taken in recent weeks. For each of those, please say if that action makes you feel [more safe, less safe], or does it have no impact on safety?

	More safe	Has no impact on public safety	Less safe	Not sure
Cutting funding for programs like Medicaid and food stamps	10%	31%	54%	6%
Mass deportations of people who have been here for decades, often without due process	31%	23%	37%	9%
Freezing funding for after-school and summer youth programs	5%	28%	57%	11%
Cutting funding for community violence intervention, victim services, gun violence prevention, and mental health crisis response programs	10%	18%	64%	8%
Billions to expand ICE and enlist local law enforcement in mass immigration raids	41%	15%	35%	9%

10. Which of the following statements comes closest to your view, even if none is exactly right?

A safe community is also an affordable community. Americans are already struggling with high costs and instability but Republicans are making things worse by gutting jobs and cutting health care to give tax cuts to billionaire donors. Republicans are focused on the wrong priorities and making the lives of everyday Americans unstable and unsafe in the process. We need to invest in things that make our communities stronger and safer by investing in good schools, good jobs, affordable housing, mental health and drug treatment. 55%

Reckless government spending surged inflation and woke politicians let crime and immigration get out of control. Hardworking families are overwhelmed by rising costs, which is why Republicans passed large tax cuts for middle class families. Tax-and-spend Democrats have made our national debt spiral out of control. More big government programs aren't going to fix anything or bring prices down. Hardworking Americans want opportunity, not handouts. . 45%

Registered Voter Omnibus RV Omni 2025 July A - Vera Toplines

This survey is based on 1,015 interviews conducted by YouGov on the internet of registered voters. The sample was weighted according to gender, age, race/ethnicity, education, and U.S. Census region based on voter registration lists, the U.S. Census American Community Survey, and the U.S. Census Current Population Survey, as well as 2020 Presidential vote and approximate 2024 Presidential vote based on available results. Respondents were selected from YouGov to be representative of registered voters. The weights range from 0.12 to 6.05 with a mean of 1 and a standard deviation of 0.71.

The margin of error (a 95% confidence interval) for a sample percentage p based upon the subsetting sample is approximately 3.8%. It is calculated using the formula:

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
